May

September

June

December

November

Encourage your child to cut, making sure they use the scissors appropriately. Support them once they have had the opportunity to try. Read out the names and ask them to say which is first, then next etc. Singing the month song helps them to remember. If unsure which song, please ask us! Also challenge them to read the words by identifying the first letters.

Please encourage your child to complete this homework independently. Please also state any support given in this box:

Thank you
